

# Woodland Works

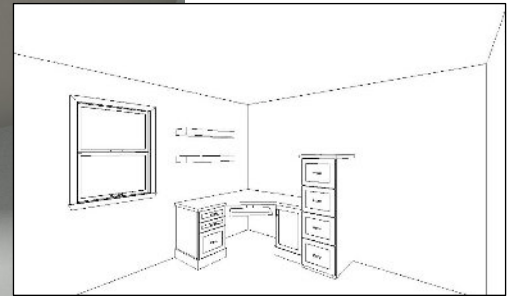

*A collection of home office inspirations from Woodland Cabinetry.*

*As we adjust to our "new normal", we see monumental shifts in human and societal behavior. None may be more noticeable than the "Work from Home" movement. As more CEOs and industry leaders see that their employees can thrive in an at-home work environment, it is important to help service the needs of the "new" workforce.*

*We've compiled a variety of home office layouts that can be designed using Woodland's standard cabinets, and included detailed renderings and perspectives for each design to make it easy to promote, customize and sell. For more information, please contact your Woodland Cabinetry representative or log on to our [website](#).*

*\*Note that all cabinet lists and .kit files are available on the dealer login portion of our website.*

*The New Corner Office – Concept #1*

*Welcome to the new corner office. This concept highlights what can be done in any corner of the house. The design features a standard desk with floating shelves and a 4 file-drawer base.*

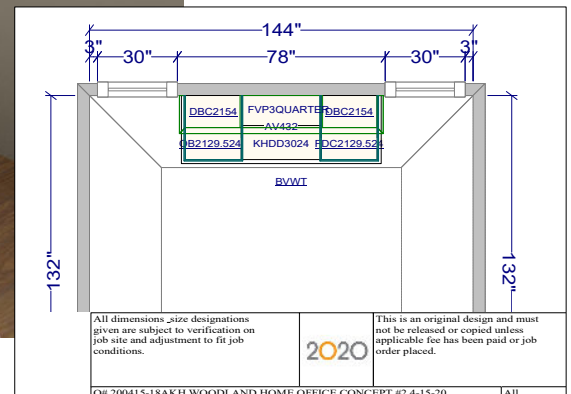

*Shown in FO Serenity/Harbor Opaque*

*Open Shelves – Concept #2*

*A home office can easily blend in with the rest of your home. This concept incorporates open bookcases to highlight home decor, books and family photos. The design features two standard bookcase cabinets along with a roll out tray option for printer/scanner storage.*

*Shown in FO Classic/Alder/Natural*

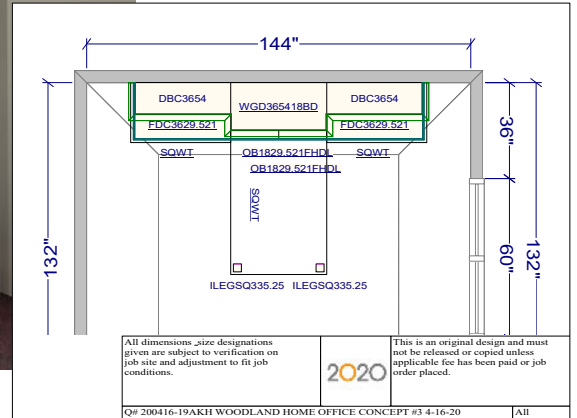

**Shared Workspace – Concept #3**

*Our third concept centers around creating a large peninsula shaped work space anchored by built ins. While the desk is a larger design in terms of space, it offers the ability to be a shared workspace for those with multiple remote workers under one roof.*

*Shown in FO Easton Plus/Alder/Weathered*

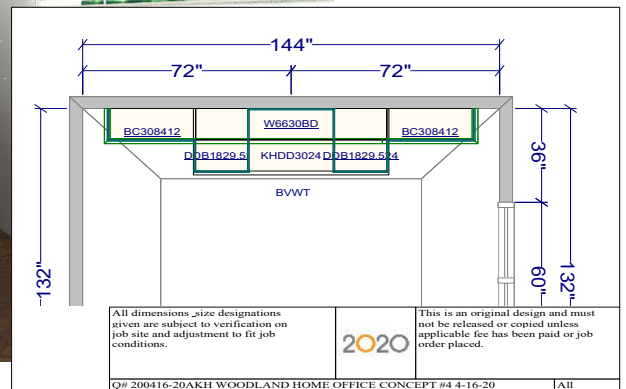

**Built-In Custom Luxury – Concept #4**

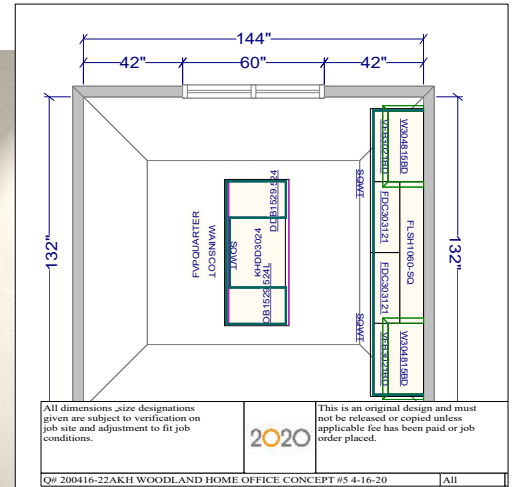

*This concept features a traditional desk custom-made to your specifications and includes both comfort and storage. Classic book shelves frame a desk built out of three drawer bases and our classic wood counter top.*

*Shown in FO Copeland/Maple/White Opaque*

## Freestanding Desk with Built-Ins – Concept #5

*For those with extra space or a home office needing a refresh, this private executive suite brings everything from your traditional office into the comfort of your own home.*

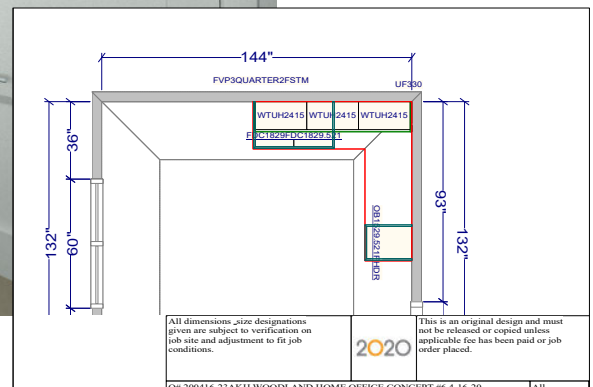

*Shown in FO Taylor Plus/Alder/Spice*

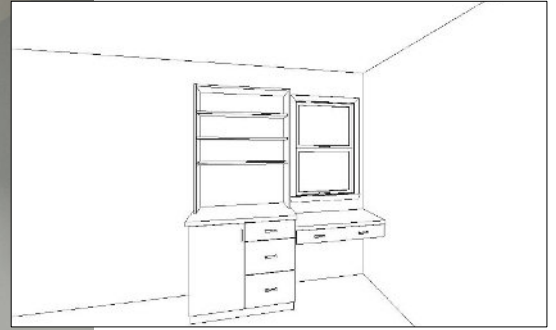

## Modern Corner Office – Concept #6

*This version of the new corner office offers storage along with the versatility of a corner design. Open shelving leaves room to display prized possessions while lift-up doors make room for larger items such as files, printers and supplies to be tucked away nearby.*

*Shown in Metro/Silver Bay and FO*

*Small spaces don't have to feel small. This simple office nook has the flexibility for a laptop or a monitor and keyboard with storage nearby to tuck the work away when the day is done.*

*Shown in Loft VG/Coastal*
